

ADVANTEC works with the Contractor to Procure ITS Technologies for CVAG's CV Sync Smart Region Phase I Project

Beyond providing consulting services for the planning (including the development of the ITS/Smart Region Master Plan), technology assessment, partnering agreement, design phase, construction and operations, ADVANTEC is working with the Contractor to procure ITS technologies for the innovative and extensive CV Sync smart region project. It includes Bosch CCTV Cameras, Daktronics Changeable Message Signs, Iteris Video Detection System, Yunex C-V2X RSUs, and reels with over 100 miles of fiber optic cable. The project is one of the first smart region programs and deployments in California involving coordination with such a large number of diverse agencies and tribal nations, championed by a regional planning agency.
